EDUCATION

2021 - present BSc(CS) at Disha Bharti College

(GPA: 6.80/10.0)

WORK EXPERIENCE

Aimed Labs, React Developer Intern

June 2023 - Sept 2023

- Developed and deployed responsive user interfaces using HTML, CSS, JavaScript, and React.js, enhancing application interactivity and user experience with strong frontend development skills, ensuring robust performance.
- Collaborated with designers and backend developers to ensure seamless integration, enhancing user experience through effective team collaboration and cross-functional communication, leading to cohesive project outcomes.
- Identified and resolved frontend issues by leveraging advanced debugging and code review techniques, ensuring high-quality code standards and significantly improving overall application performance.
- Explored and utilized React Hook Form for efficient form handling and validation, while also gaining hands-on experience with Flutter for cross-platform mobile development, promoting best practices and expanding my technical skill set.

PROJECTS

Plan It Grand — *React.js, JavaScript, Tailwind CSS*

- **Situation:** I aimed to create a more interactive and visually appealing web application to improve user experience.
- **Task:** I was responsible for developing the frontend of the application using React.js, JavaScript, and Tailwind CSS.
- **Action:**
 - Utilized React Hooks and React Router DOM to implement core features, enabling dynamic content updates and seamless navigation.
 - Applied advanced state management solutions to ensure stability and performance.
 - Conducted comprehensive optimization efforts to enhance code quality, usability, and responsiveness.
- **Result:** The application saw a significant improvement in interactivity and visual appeal, offering a modern, user-friendly experience. These enhancements led to higher user engagement and a more efficient interface.

Shree Balaji — *HTML, CSS, JavaScript*

- **Situation:** I aimed to develop a responsive webpage to improve user experience and engagement.
- **Task:** I was responsible for creating the webpage using HTML, CSS, and JavaScript.
- **Action:**
 - Developed a responsive webpage, emphasizing responsiveness and user experience.
 - Implemented custom animations using CSS and JavaScript to create engaging visual effects.
 - Ensured cross-browser compatibility by testing and optimizing the webpage for different environments.
 - Addressed challenges with design consistency by applying problem-solving skills and adhering to best practices.
- **Result:** The webpage became responsive and visually appealing, offering a seamless user experience across different browsers. The custom animations enhanced user engagement and demonstrated creativity and technical proficiency.

SKILLS

Languages	JavaScript, C++
Development	React.js, Tailwind CSS, MongoDB, Node.js, SQL
Development Tools	VS Code, Git, GitHub, Netlify

ACHIEVEMENTS

- Led team to 2nd place in college tech quiz, showcasing leadership.
- Secured 3rd place in AI speech competition, demonstrating expertise.
